WE'RE FOR AMERICA AMERICANS!

"Advance Guard of Progress."

Our Next President.

WILLIAM McKINLEY
of Ohio.

Vice-President.
GARRETT A. HOBART
of New Jersey.

Is the National Platform isn't broad enough and sound enough for every Republican to stand upon, we'd like to see one that would be.

MARK THIS: The free coinage of silver epidemic will carry its victims to the political graveyard just as the Greenback and "red baby" pestilence did.

"The crime of '73" is a favorite cry with the free silver coinage fanatic. If they have their way future generations will have good cause to speak of the "crime of '96."

What's the matter with the mine owners of Michigan demanding the free and unlimited coinage of copper? It's one of the metals of which United States money is made.

EDITORS of the British newspapers do not seem to take a fancy to Major McKinley.—*Lexington Times.*

Of course not; they know that he is the friend of America. Your Britisher has no use for a man who is not in favor of shutting up American factories for the benefit of English factories.

Is every man and woman in Mayville would go to Cincinnati to buy their groceries, clothing and other family supplies, they would only be carrying out the principles of Democratic Free-trade, which demands that every American shall buy goods made in Europe in preference to those made at home.

HON. JOHN G. CARLISLE has now gone and done and did it sure enough. From now henceforth forever and a day or two longer his name is Dennis Anshema. He has actually appointed a Republican to a Special Agency of the Treasury Department, and the appointee is a Kentucky Republican at that!

CERTAIN Democratic orators and newspapers, when advocating a tariff "for revenue only," often refer to that of 1846 as a model.

The latter was based on a report (1845) of ROBERT J. WALKER, Secretary of the Treasury under President POLK. That report was characterized by The London Times as being "the only Free-trade document ever presented to Congress by an American Minister of Finance." The Free-trade enthusiasts of today ignore, and no doubt for a purpose, the many influences which, during the time this tariff was in force, promoted great business activity, though meanwhile our industries that competed with the foreign were being gradually ruined.

For illustration: The Mexican War began in the same year (February, 1846). This, says the American Economist, gave

an immense impulse to business. The Government issued \$150,000,000 Treasury notes, which passed current in commercial transactions. The volunteers left vacancies in the workshops that were filled by others at enhanced wages. Then came the discovery of gold in California (1848), and that gave a still greater impulse to business. Meanwhile there were short crops in Europe (1847-9) on account of which an immense amount of grain was exported to Europe. Then came the Crimean War (1854-56), and the exports of grain continued.

This tariff was in operation about fifteen years; but the Free-traders don't tell us that it left the Government in debt \$87,700,000, and "that the country was flooded with cheaper made foreign goods," that our own mechanical industries were virtually ruined, and when the financial crash came in 1857 the balance of trade was against us to the amount of \$335,000,000 because it was a tariff on a sliding scale, with lower and lower duties, that culminated almost in absolute Free-trade.

ALREADY some of the Democratic papers, which are ever ready to manage affairs for the Republican party without ability to direct matters in their own camp, have "booked" Colonel SAM. ROBERTS of Lexington for the Collectorship of this District when McKINLEY is made President. Well, Mr. ROBERTS is a modest gentleman, and that place might be entirely to his liking, but THE LEADER hopes to see him more highly honored. He is one man who deserves a front seat in the Tabernacle, and he is qualified to grace any position to which he may aspire.

Hereditary of Alcoholism. A German case that resembles that of the famous Jukes family has recently been reported by Professor Pellman of Bonn, who has traced the careers of 709 of the 884 known descendants of a German woman, a drunkard and a thief, who was born in 1740. Of her descendants 106 were born of wedlock, 308 were professional beggars, 181 were women, 76—including seven murderers—got into jail; in 73 years these persons have cost the state more than \$1,300,000. Professor Pellman has gathered these statistics to prove the injurious effects of alcohol, but they seem to show that it does not diminish fecundity, and that the proportion of children reaching maturity is far above the average.

IN HIS REPORT

To the President on Cuban Affairs Consul General Lee

Gives a Strong Hint That Recognition of the Cubans is Necessary.

His Document, Which is of the Greatest Importance to the United States and Spain, Will Reach Washington Some Time During This Week.

NEW YORK, June 23.—A dispatch from Havana says that Consul General Lee forwarded to President Cleveland on Saturday dispatches of the most importance. They should reach the president and Secretary Olney early in the coming week. The dispatches contain the full reports of the consular general upon the Cuban situation and are of extremely sensational character.

In the dispatches there are two quite distinct documents, the one wholly confidential and for the personal information of President Cleveland; the other a frank exploitation of the situation in the island at this time. With the greatest candor, the report states the attitude of the United States in Havana describes the existing condition of affairs in Cuba.

His document is of tremendous importance to the United States and to Spain. No strong is in fact, that its contents may, it is hinted, be made the basis of an intervention in Cuban affairs on the part of the administration at Washington immediately.

The report contains information particularly designed for the department of state, and which will be presented to Secretary Olney, is a complete and impartial review of the situation of the island.

Consul General Lee takes the ground that the only possible solution of the difficult problem existing in the island is autonomy on Canadian lines. While the Spanish flag flies in the island of Cuba, Consul General Lee says, no other remedy can be devised to stay the rebellion or end the bloodshed and devastation which are at present making a blot of the entire surface.

"Even this remedy," the consular general informs president Cleveland and Secretary Olney, "at this stage may be ineffectual. At one time in the course of the rebellion the Cuban revolutionists might, perhaps, have welcomed an autonomy as well as the friends in a party of peculiar respectability in the island. But at present this party has lost its hold in a political degree, and as for the patriots and their friends, their watchwords are now unconditional surrender on the part of Spain and a free republic in Cuba."

Consul General Lee finds that the Spanish government has in many instances been extremely imprudent in its efforts to protect either the lives of foreigners resident in the island or their property.

The consular general hints, finally, that unless this danger to foreign residents can be avoided the recognition of the independence of the Cuban revolutionists will soon become advisable.

HAVANA, June 23.—United States Consul Lee, when asked regarding the attitude of the United States toward a report to President Cleveland on the Cuban situation, denies absolutely that he has sent any report on this subject.

GEN. WEYLER

Pleased With the Aspect of Cuban Military Affairs.

His Plan of Campaign Is Approved by the Spanish Government.

With the Addition of 40,000 Men From the United States, He Will Be Able to Crush the Rebellion by June Next—Two Patriotic Shots.

HAVANA, June 22.—It is reported on good authority that Gen. Weyler is pleased with the aspect of military affairs in the island, and that the government has expressed its approval of his plan of campaign. He is confident that with the reinforcements of 40,000 men promised him by the minister of war, he will be able to crush the rebellion, and that he will return triumphant to Spain in June next. It is his intention to send 20,000 of the new troops when they arrive to the province of Pinar del Rio, where they will be employed in crushing the rebellion. The reinforcements will enable Gen. Weyler to displace with the services of the volunteers who are at present doing garrison duty.

Andres Hernandez Rodriguez and Andres Alonso Calvo, who were the leaders of the Cuban fortress Monday for the crime of rebellion.

The rebel leader, Montes de Oca, has surrendered to the Spanish authorities at Sagua. Sunday night a body of rebels fired upon the fort protecting Guaymabo, just across the bay from Havana. They were repulsed by the garrison. Another band attacked the town of Arroyo Mameo, 13 miles from Havana. They were also repulsed. On their retreat they burned several houses at Centarinas, close to Arroyo Arriba.

EX-GOV. RUSSELL

Will Advocate Bond Money in the Chicago Convention—Not a Candidate for President.

HONOLULU, June 22.—When seen Monday in regard to the report that he was going to Chicago, with ex-Governor Whitney, ex-Gov. Wm. E. Russell said:

"At the earnest request of Mr. Whitney and others, I am going to Chicago with him to give whatever help I can in the struggle in the democratic party against money, with ex-Governor Whitney. My own views on the subject are well known and have been often stated. I can not, however, go to Chicago as the least suspicion of my being there for any personal reason, nor can I take part in this fight, embarrassed by any personal interest in the result. I shall, therefore, decline to have my name presented to the convention as a candidate.

I believe in following the stoniest possible fight for sound money and the gold standard, and shall not give up the fight until the voice are counted."

WHIST PLAYERS.

The State Congress of the American League—A Distinction Accorded to Two Women.

NEW YORK, June 22.—Since Saturday morning the Oriental hotel, at Manhattan Beach, has been filling up with delegates and players arriving for the sixteenth congress of the American Whist league. The first contest begins Monday evening, when the Brooklyn trophy will be contested for by the auxiliary associations. About fifty clubs have entered for this match, which will be finished in one week. On Tuesday morning at ten o'clock the whist congress will be convened. A business session will be held daily at that hour through the week. Resolutions for officers for the coming year will be made on Tuesday, election will take place on Friday.

THEODORE SCHWARTZ, PRESIDENT OF THE LEAGUE.

The present officers of the league are:

President, Theodore Schwartz, Chicago; vice president, Walter H. Barney, of Providence; recording secretary, Bertram D. Kribben, St. Louis; corresponding secretary, Robert H. Weems, Brooklyn; treasurer, Benjamin L. Richards, Rock Rapids, Ia.; directors, George H. Fish, of New York; P. J. Tormey, of San Francisco; C. P. Hamilton, of Easton, Pa., and Chas. E. Coffin, of Indianapolis.

The number spoken of as likely to be the next president of the league is Walter H. Barney, the present vice president. The chief matter to be brought up for discussion before the congress is the desirability of admitting women's whist clubs to membership in the league. This matter is likely to produce considerable argument before the congress.

An executive meeting of the officers of the whist league was held Saturday. The only action of importance taken by them was the election of Mrs. Thomas H. Andrews, vice president of the whist club, and Mrs. William Henry Newbold, both of Philadelphia, as associate members of the league. This is a distinction that has been accorded to but few women.
